| Checklist  | Y/N | Additional Notes and Comments |
|--|-----|-------------------------------|
| Management   |     |                               |
| Does the company have a clear BCM policy?  |     |                               |
| Who is the senior-level BCM sponsor?   |     |                               |
| Who is responsible for day-to-day BCM management (team or individual)?                     |     |                               |
| Do you have a BCM-specific budget in place?  |     |                               |
| Do you think each department should have a BCM representative?                             |     |                               |
| Business Impact and Risk Assessment  |     |                               |
| What are the potential impacts for the following areas?                                    |     |                               |
| Member   |     |                               |
| Fraud Exposure   |     |                               |
| Legal Exposure (Fines or Penalties)  |     |                               |
| Recovery Time Objective (RTO)  |     |                               |
| Recovery Point Objective (RPO)   |     |                               |
| Financial Impact Analysis (FIA)  |     |                               |
| Do you have a prioritized list and inventory of business processes?                        |     |                               |
| Do you have an itemized list for the following critical resources?                         |     |                               |
| Systems  |     |                               |
| Locations  |     |                               |
| Equipment  |     |                               |
| Skills   |     |                               |
| Supplies   |     |                               |
| Has a risk assessment been completed to identify potential threats to business continuity? |     |                               |
| Likelihood   |     |                               |
| Impact   |     |                               |
| Are there mitigation measures in place to reduce or eliminate threats where possible?      |     |                               |

|--|-----|-------------------------------|
| Contingency Plan   |     |                               |
| Are arrangements in place to support the recovery of critical resources?                               |     |                               |
| Systems  |     |                               |
| Locations  |     |                               |
| Equipment  |     |                               |
| Skills   |     |                               |
| Supplies   |     |                               |
| Are there manual procedures in place to be used while systems are being recovered?                     |     |                               |
| Does this plan meet the recovery time objectives?  |     |                               |
| Are the arrangements formally binding and supported by contracts?                                      |     |                               |
| Do you have an established timeline for restoring critical computer and communications infrastructure? |     |                               |
| Has this been tested?  |     |                               |
| Has a data recovery test been completed successfully?  |     |                               |
| Have individual recovery processes been documented?  |     |                               |
| Do your vendors have a business continuity plan of their own, that suit your needs?                    |     |                               |
| Documentation  |     |                               |
| Are your business continuity arrangements in a formal business continuity plan?                        |     |                               |
| Does your business continuity plan cover the following?  |     |                               |
| Activating the plan  |     |                               |
| Assessing the incident   |     |                               |
| Escalating the response  |     |                               |
| Standing down  |     |                               |
| Does your business continuity plan include the contact details for the following?                      |     |                               |
| Staff  |     |                               |
| Suppliers  |     |                               |
| Members  |     |                               |
| Stakeholders   |     |                               |
| Regulators   |     |                               |
| Insurance Providers  |     |                               |
| Do you have a messaging system to timely and effectively contact staff?                                |     |                               |

| Checklist   | Y/N | Additional Notes and Comments |  |  |
|---|-----|-------------------------------|--|--|
| Documentation (Continued)   |     |                               |  |  |
| Does your business continuity plan clearly state roles and responsibilities for team members listed?                            |     |                               |  |  |
| Have copies of your business continuity plan been distributed to those who need it?   |     |                               |  |  |
| Training and Implementation   |     |                               |  |  |
| Are all staff aware of the BCP?   |     |                               |  |  |
| Are all those who have responsibilities trained and familiar with your business continuity plan?                                |     |                               |  |  |
| Does your company have annual BCP training for team members?  |     |                               |  |  |
| Has your business continuity plan been exercised in its entirety?   |     |                               |  |  |
| Reviewing and Process Updating  |     |                               |  |  |
| Who is responsible for managing your business continuity plan and keeping them up to date?                                      |     |                               |  |  |
| Are there procedures in place for updating your business continuity plan with changes in personnel, processes, resources, etc.? |     |                               |  |  |
| Is your business continuity plan reviewed annually by the Board of Directors?   |     |                               |  |  |
